Before beginning the discussion of this application, the examiner notes that the claims find support back to the original application, 08/015774, filed 2/10/1993.

The following is an examiner's statement of reasons for allowance: Claims 25-34 define over the art of record in that none of the art shows a catheter with a controller either heats or cools the catheter in response to body temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

During a phone interview with Mr. Buyan on June 24, 2004, the examiner indicated that the claims defined over the art, but that a double patenting rejection would be forthcoming over patents 6,149,673, 6,149,676, 6,620,188, 6,635,176, and 6,436,131. Mr Buyan then agreed to submit a terminal disclaimer to obviate the double patenting rejection. Accordingly, claims 25-34 are allowable.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (703) 308-3251. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (703) 308-3130. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
